Firas Ridene

AI Engineer · Generative AI & Multi-Agent Systems · Tunis, Tunisia

firas.ridene@outlook.com | +216 92 213 106 | github.com/RideneFiras | linkedin.com/in/firas-ridene | firasridene.tech

PROFILE

AI Engineer combining experience in generative AI, multi-agent systems, and workflow automation with client-facing solution design. Skilled in identifying process improvements, translating business needs into practical solutions, and explaining technical trade-offs to non-technical stakeholders.

EDUCATION

Esprit: School of Engineering — **Tunis, Tunisia**
Engineering Degree in Computer Science — 2023 – 2026

Integrated Preparatory Cycle — **Esprit Tunis**
Mathematics & Physics — 2020 – 2023

EXPERIENCE

AI & Software Engineer
Freelance / Self-Employed · May 2026 - Present

- Delivered AI and full-stack solutions across marketing, sales, finance, and insurance.
- Worked with clients to identify process improvements and translate business needs into technical solutions.
- Managed projects end-to-end, from requirements gathering and development to deployment.

Tech Stack: *Python, FastAPI, Next.js, TypeScript, PostgreSQL, Anthropic Claude, QStash, Unipile, Stripe, Railway, Vercel, n8n, latenode, CrewAI*

End-of-studies Project - Vocaflow
Agile4ux · 2026

- Designed a multi-tenant platform where users build and deploy AI voice agents across phone, chat, and WhatsApp.
- Built real-time voice agents with knowledge retrieval, data collection, and human handoff at sub-second latency.
- Enabled 24/7 customer engagement for inquiries, bookings, and support without added headcount.

Tech Stack: *React, FastAPI, Supabase, OpenAI Realtime API, Twilio, Stripe, Redis, Docker, Azure*

AI Automation Intern
Agile4ux · 2025

- Analyzed marketing and sales processes to identify repetitive tasks and automation opportunities.
- Designed a multi-agent system to research, qualify, and analyze prospects, generating strategic reports.
- Reduced manual prospecting time by ~80% and automated report delivery and CRM integration.

Tech Stack: *Python, FastAPI, OpenAI, CrewAI, Latenode, Presenton*

PROJECTS

Content Creation Automation Platform

- Built a platform automating research, generation, and publication of Facebook content across objectives.
- Orchestrated specialized agents per source (news, websites, documents) with email validation before publishing.
- Implemented automated comment moderation and intelligent responses based on a knowledge base.

Tech Stack: *Python, n8n, MCP, Meta Developer, Tavily, ChromaDB*

Recruitment Automation System

- Built four interconnected pipelines covering candidate intake, AI scoring, ATS synchronization, and lead generation.
- Scored candidates against job requirements using weighted signals, generating clear reasoning behind every shortlist decision and triggering automated shortlist emails and Telegram alerts.
- Synced candidate data automatically across the ATS, kanban board, and public job board, keeping every system up to date in real time.

Tech Stack: *n8n, Make, REST APIs, Webhooks, Telegram, Notion*

Pedagog'IA – AI Platform for Teachers

- Built a social platform for Tunisian teachers to share resources, combined with an AI feature generating fiches, quizzes, and exercises.
- Implemented an AI credits system, admin panel, and full social feed feature set.
- Designed the AI generation flow around subject, level, and chapter inputs for fast lesson prep.

Tech Stack: *Next.js, FastAPI, Supabase, pgvector, GitHub Models (gpt-4o-mini)*

TECHNICAL SKILLS

Generative AI & Agents	LLMs, RAG, LangChain, CrewAI, MCP, Claude Code, Transformers
ML & MLOps	PyTorch, TensorFlow, Scikit-learn, MLflow, Azure ML Studio, SHAP, GitHub Actions
Development & Data	Python, JS (Node.js), Java (Spring Boot), FastAPI, REST APIs, Pandas, SQL, NoSQL
Infra & Automation	Docker, Render, Git/GitHub, Elasticsearch, Kibana, n8n, Latenode
